

We have always known that our family would grow through adoption, since before we married. We have tried to get pregnant for about 8 years now but have been unsuccessful. Therefore, we decided to adopt and we were blessed with Daniel. We hope to further grow our family through adoption.

We have nothing but utter respect and love for you. We cannot imagine what a difficult decision this is for you, and we pray for you daily, that you have the courage and strength that you need as you go through this process. We know that you only want the best for your child and we hope that you will find us to be the parents you are looking for.
